

# Guest Informations for Chalet Spycher

(Studio)

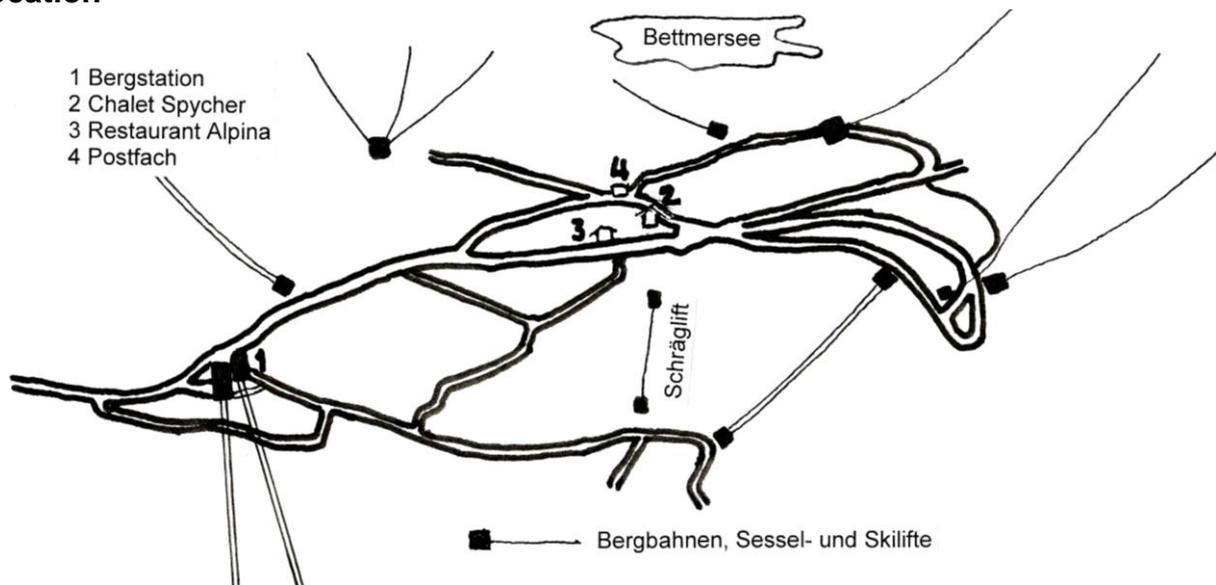

Dear guests

We are happy that you will pass your holidays in our Chalet Spycher. As we do not live in Bettmeralp we will give you some additional information herewith.

## **Arrival**

Chalet Spycher is located in the middle of the village behind the Restaurant Alpina and the skiing office. You will recognize it easily by the blue coloured shutters. You get there by foot within 8 minutes from the cable cabin station.

## **Location**

## **Key supply**

The apartment stays open. The key lays on the table.

## **Fitments**

The following fitments are at hand:

- Kitchen towels, bed-linen
- Hair-drier
- Laundry rack, Radiator for drying the clothes
- Nespresso capsule coffee machine, Coffee filtermaschine, Kettle
- Cheese-fondue-Rechaud, Raclette-Oven
- Books for adults and children
- Games, puzzles for adults and children (in the partition of the nook bench)
- no CD-player

## **Your Stay**

- You have to bring your own bathing towels.
- The spices in the kitchen are left by the guests before you. They are left from us deliberately at your disposal.
- Please put the ski boots on the special grating at the entrance.

## Mail address

The address of our house is: *Chalet Spycher, Postfach 477, 3992 Bettmeralp*  
The key for the P.O.Box is in the kitchen.

## Heating

The heating is on. Just in case there is a heating element not on, you will find either on the side of the heating element the on/off-switch or there are two little wheels („A“= off, „M“= on). It depends on the sort of heating element. The heating works with thermostat. If it is warm enough, the heating stops automatically.

**Please don't put clothes on the heating elements – it can burn.**

## Oven

The oven has a childproof safety. In case it does not turn on, press the button that is marked with a little hand.

## Hot plate

The hot plate that is situated on the upper right hand side has 2 rings. To turn on the 2. ring, turn the switch more than to the stop and let it go again.

## Cleaning of melted cheese

Put everything that has melted cheese on it in COLD water during 1-2 hours (warm water makes the cheese sticky). Afterwards the cheese can be removed easily. Do not scratch with metal in the little cheese pans!!!

## Rubbish

In Bettmeralp you can separate paper, carton, glass, pet and tins. All other materials like plastics and so on you can throw in the **official orange rubbish bags**.

## Closing the door

For closing the door, push the door-handle up (vertical) and turn the key in the same time.

## When leaving the Chalet, please

- Take off the used bed linen.
- Bring the rubbish bags to the rubbish deposit.
- Leave the apartment until latest **9.00 am**.
- Put the key back to the table and leave the apartment open.

## Something broken?

In case of urgency, damages or technical problems, please contact us on phone number +41 79 428 08 42. We will help you as good as we can.

We wish you a marvellous stay in our Chalet Spycher and hope, that you will write some greetings in our guest book.

We would be happy to welcome you next year again.

Best regards

Susan Widmer
